

Liquid Copper

Copper oxychloride suspension
concentrate

A foliar inorganic micronutrient fertilizer suitable for a wide range of arable and horticultural crops.

Uses

To correct or prevent copper deficiency in a wide range of agricultural and horticultural crops.

Benefits

Copper is an essential micronutrient. It is involved in the enzyme systems in association with other elements and is particularly active in many of the metabolic pathways within the cell. All crops can be affected by copper deficiency including cereals, vegetables, fruit, brassicas, root crops, horticultural crops and grassland.

Chemical/physical data

Typical analysis: 435 grams per litre (32.2% w/w) copper oxychloride equivalent to 256 grams per litre of elemental copper (Cu)

Analytical Method: Available on request

Appearance: An opaque blue-green liquid.

Specific gravity: 1.35

Directions for use

Application rates: Marginal deficiency: 0.25 litres per hectare
Moderate/severe deficiency: 0.5 litres per hectare

Directions: Apply in at least 200 litres water per hectare. Applications should be made during periods of active growth when there is enough foliage present to absorb the spray. Do not apply before the 3-leaf

stage. Do not apply when the crop is under stress due to drought or extremes of temperature.

Repeat application after 3 – 4 weeks and again if symptoms return.

General information

Packaging: 10 litre

**Harmonised
Tariff No:** 2827-41-00

Technical service: For further information, assistance and access to The Solufeed Advisory Service, please contact Solufeed at the address below.

Precautions

Harmful if swallowed.

Very toxic to aquatic organisms

May cause long term adverse effects in the aquatic environment.

Detailed health and safety information may be found on the relevant Material Safety Data Sheet (MSDS) available on request from the address below.

Important

The information in this document has been prepared carefully and is provided in good faith. The application, use and processing of any material together with regulatory compliance is the absolute responsibility of the Buyer. All technical information or other advice provided by the Seller in any form is given without warranty to the full extent provided by law.
