

## **OPF Bio Liquid**

*High Performance Organic Plant Feed of  
vegetable origin*

### **Features and Benefits**

A premium quality, easy to use liquid organic plant feed suitable for a wide range of edible and ornamental plants. Suitable for soil application and (because of its high quality) foliar spraying too.

OPF Bio Liquid is completely natural and derived from plant material, **not** animal waste.

Approved by the UK Soil Association.

The natural raw materials used to formulate OPF Bio Liquid ensure that there is a high level of micronutrients and sugars.

### **Directions for use**

One cap full (with tamper ring removed) is equivalent to 10mls.

#### **Soil application**

Apply 40 - 60 mls **OPF Bio Liquid** per 10 m<sup>2</sup> in 5 - 10 litres of water after cultivation and prior to planting.

#### **Liquid feeding** (eg watering can)

Dilute **OPF Bio Liquid** 5 -10 mls per litre of water and apply generously at every watering when plants are actively growing.

#### **Foliar application**

Dilute **OPF Bio Liquid** 2 - 5mls per litre of water and apply as a fine spray to coat all the leaves and stems. Repeat at 7 – 10 day intervals when plants are actively growing.

**NB avoid spraying in hot sunny conditions - late evening is the best time of day.**

## Composition

Constituents include: soya extract, kali vinasse and molasses.

Typical Analysis: -

Total nitrogen (as N):	8.2% w/v
Phosphorus pentoxide (P <sub>2</sub> O <sub>5</sub> ) soluble in water:	3.1% w/v
Potassium oxide (K <sub>2</sub> O) soluble in water:	3.2% w/v

Also contains, amino acids, sugars, calcium, magnesium, sulphur and all six trace elements. Being a natural product actual analysis can vary.

## General information

**Packaging:** 500 ml bottle.

**Technical service:** For further information, assistance and access to The Solufeed Advisory Service, please contact Solufeed at the address below.

## Precautions

Store in a cool dry place away from direct sunlight. Keep away from children, pets and livestock. Protect from frost. Reseal partly used packs tightly. Use diluted products within 8 hours.

Detailed health and safety information may be found on the relevant Material Safety Data Sheet (MSDS) available on request from the address below.

## Important

The information in this document has been prepared carefully and is provided in good faith. The application, use and processing of any material together with regulatory compliance is the absolute responsibility of the Buyer. All technical information or other advice provided by the Seller in any form is given without warranty to the full extent provided by law.

Please note that products may differ or be unavailable in certain territories.
