

Anthyllis Garlic extract

Natural organic plant invigorator

A Garlic Barrier™ Product
Previously marketed as Anthyllis

Uses

Applied in a programme **Anthyllis** creates conditions conducive to healthy plant growth mitigating the negative effects of stress. Suitable for all crops including those grown to organic standards.

Benefits

- Suitable for most crops
- No chemical setback
- No taints
- Odourless within minutes of application
- No harvest interval
- Biodegradable
- Safe to use, kind to the environment
- Harmless to bees

Composition

Anthyllis is a concentrated formulation containing high quality garlic and extract, it is rich in selenium and sulphur.

Directions for use

Foliar application

Dilute **Anthyllis** 1:100 in water and apply as a conventional fine spray ensuring that all plant parts are covered. Repeat at 7 – 14 day intervals as necessary. Only apply when the air temperature is over 10°C, but avoid high temperatures and bright sunshine, late afternoon/evening is best.

Irrigation systems

Apply **Anthyllis** at 3 – 12 litres per hectare through the irrigation system via a calibrated proportional diluter or the irrigation tank, Repeat at 7 – 14 day intervals as necessary.

Shake container well and agitate while mixing.

Note: During application the characteristic smell of garlic will be evident, but this will soon disappear.
